4. *MM2A Update – Elineth Torres, Policy Strategies Group*

Elineth discussed that regarding the 2018 MM2A memo, the Proposal FRN is to be published in late spring and the OMB will take comments (like we did on the 2007 notice). The memo is being litigated to review and overturn the memo. Oral arguments will be held on April 1, 2019.

The guidance memo to the Regional Administrators dated 1/29/19 is an internal document only. See this memo attached to this call agenda. About 35 applicability actions have come in to the Regions. If have any questions, refer to the memo and send email to Elineth or Rod Truesdell.

The ruling on the lawsuits on the memo will impact the final FRN, and we want to get that out as soon as possible.
